

Prayer Shawl/Blanket Instructions

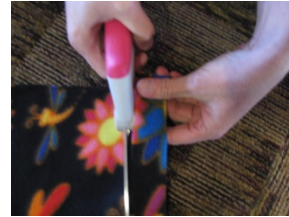

Required items: 2 yards of fleece & SHARP scissors

1. Lay out fleece and cut 6"x6" squares from each corner.

2. Cut strips into each side approximately 1.5" wide and 6" deep.

Do this all on 4 sides. It does not have to be exact. I used my thumb as measuring tool.

3. Tie strip using a basic knot. The knot should end up at the top of the cut.

4. If the shawl/blanket begins to curl up, just give the whole blanket a stretch.

**** This is a single layer shawl/blanket. If you are doing multiple shawls/blankets, you can layer up to 4 pieces of fleece and cut the strips at one time. ****
